

In October 1999, my Dad was diagnosed with lung cancer and was to undergo chemotherapy, and radiation treatment. Having just lost Mother to cancer only 3 months before, we knew what the road ahead looked like. The hair loss, the radiation burns, and the deteriorated skin. I wanted to help Dad through this difficult time and treat the external side effects with products that would show positive results. My research led me to [Colleen Moon](#), president of Complete Cosmetics and creator of **Premiere Collections**. She guided me to a series of skin care products that would help rejuvenate Dad's skin that was damaged from the radiation treatments.

The doctors told us it would be at least 6 weeks before the radiation damaged area on his chest would be healed and the skin would be sensitive and fragile until then. (Also, we were to start a second round only a few weeks after that 6-week wait period). After using the skin care products Colleen recommended, we began to see an improvement in Dad's chest area within the week! He said it *felt so much better*, and it definitely looked like the healing process got a jump-start! We were thrilled! His skin continued to improve and by the time we went back for the next visit, the doctors and nurses all commented on how well the treatment area had healed, and how healthy his skin looked!

As time and the disease progressed, Dad had to undergo radiation to the brain, and once again he experienced radiation burns on his scalp, neck and face area. After the treatment ended, we began the use of these wonderful products on his scalp and damaged facial areas. He was very adamant about us doing "*that stuff*" to his skin. And once again, skin began to heal at a remarkable rate and without infection or other problems.

We lost Dad in November 2000, but I will never forget the pleasure and comfort Dad felt after using these products. His comfort was important to us and was vital for him. The rapid healing that took place on the radiation-damaged skin helped make a scary treatment, just a little more tolerable. It definitely helped him and us through a most difficult time.

The Biography of

COLLEEN R. MOON

The 21<sup>st</sup> century marked Colleen's 40<sup>th</sup> year in the cosmetic industry, the emphasis being cosmetic specialty store retailing. As Director of Marketing and National Sales Representative for Elizabeth Arden, Colleen was responsible for creating new products and directing the sales force in eleven western states. She has spent seven years training and developing skin care and color for Merle Norman Cosmetics. She is responsible for establishing hundreds of women in their own cosmetic businesses. Colleen lectures throughout the United States to consumers, guiding them in choosing the proper skin care system for healthy skin to meet the changing environment. She has been a guest speaker and lecturer. Colleen appears on television and radio to teach common sense skin care to men, women and children.

From 1981 to present, Colleen has been President of Complete Cosmetics Inc., an International marketing and product distribution company which she founded, specializing in assisting entrepreneurs in promoting cosmetics in a specialty store environment. She has created a 600-piece Cosmetics line, consisting of skin care, color and educational aides. The Premiere Collection Cosmetic products are currently sold in a variety of specialty stores and salons across the United States, Canada and Australia. It has been Colleens' pleasure and privilege to be a part of their success.

From Colleen's education at the University of Southern California, Elizabeth Arden, Merle Norman and Eli Lilly Pharmaceuticals, there has never been a time that Colleen has not looked forward to being a part of this great industry.
